

Strong together

Because we combine cutting-edge
medicine with a human touch

Employees

Insel Gruppe is one of Switzerland's leading hospital groups for university and integrated medicine.

At the five Insel Gruppe locations, our employees work in medicine, nursing, operations, infrastructure, administration, teaching and research and guarantee high-quality medical care for patients. In addition, Insel Gruppe is the leading training institution in Canton Bern. We offer exceptional training and education opportunities across all areas of medicine and for all healthcare professions. Diversity is a success factor at Insel Gruppe, and equal opportunities are a top priority here. As a social employer, we value a healthy work-life balance and support a meaningful approach to managing professional and personal life.

Strong together. Because we combine state-of-the-art medicine with a human touch.

Company

With its portfolio of hospitals steeped in tradition, Insel Gruppe is one of the largest full-service medical care systems in Switzerland – covering every level from state-of-the-art medicine to basic care.

Our corporate culture is based on the values of respect, excellence and responsibility. Together, we are committed to a culture that supports and unites us.

RESPECT

Respect in our interactions with patients, with one another, and across teams.

EXCELLENCE

Optimum quality thanks to a high level of technical expertise and continuous development.

RESPONSIBILITY

Act reliably, make decisions and take responsibility for the outcomes.

Shaping the future together

As Switzerland's leading hospital group, we focus on the medicine of the future. We combine cutting-edge university medicine with a human touch. These are our topics:

Holistic medicine and patient orientation

We apply our expertise in highly specialised medicine and basic care for prediction, prevention, diagnostics, treatment, rehabilitation and palliative care throughout life – day and night.

Data-based and translational medicine, innovative research and teaching

The collaboration between Insel Gruppe, the Faculty of Medicine and the University strengthens us in our day-to-day work. We use health data and artificial intelligence to further develop medicine, the quality of treatment and the healthcare network.

Responsible leadership culture and corporate development

We further develop our management and corporate culture at all levels, ensure attractive working conditions and use our resources sustainably.
